3. Risks Involved in the Use of the Smart Contracts.

DAOLABS' protocol runs entirely on publicly accessible smart contracts explained in detail throughout the Juicebox DAO's online documents, currently available at <https://info.juicebox.money>. The Juicebox DAO's protocol is public infrastructure running well-known code. All consequences from interacting with networks running the protocol are borne by the entities who sign each transaction. The protocol works according to the specifications outlined in these docs to the extent the code is written and deployed correctly, which is a collective responsibility and is not guaranteed. There are major risks that the code is not written and deployed correctly. **Please do your own research.**

4. Source Code Repositories.

No Warranties. DAOLABS's source code Repository is only a presentation of information regarding certain view points and technologies. The statements contained in the Repository do not provide any advice, representation, warranty, certification, guarantee or promise relating to these technologies, any uses thereof or any of the other matters discussed in the Repository, nor does the Repository provide an offer or agreement to make such technologies available, maintain or update such technologies, or sell or buy any asset or enter into any transaction. You should not rely on the Repository as a basis for making any financial or other decision.

Please remember that other Registered Users may search for, see, use, modify and reproduce any of Your Content that you submit to any "public" area of DAOLABS Properties. 6. The Decentralized Application.

DAOLABS provides access to a DAPP, a decentralized finance application, ("**Application**") on the Ethereum blockchain that allows individuals to contribute Ethereum assets including Ethereum, ERC-20, ERC-721, and other Ethereum-based assets ("**Cryptocurrency Assets**") to DAOLABS Treasury as contributions. The Application may be configured as to emit project tokens ("**Project Tokens**") which may or may not have utility. The Application spans a front-end application, middleware (including Interplanetary File System metadata, Graph indexers, Blocknative API functions, Infura services, Cloud Functions, etc.) and an array of Ethereum smart contracts - the user is required to authorize the execution of the Smart Contracts when interacting with their wallet at all times.

Using DAOLABS' protocol may require that you pay a fee, such as gas fees on the Ethereum network, to perform a transaction. You acknowledge and agree that DAOLABS has no control over any transactions among Users over DAOLABS' protocol, or the method of payment of any such transactions or any actual payments of such transactions. Accordingly, you must ensure that you have a sufficient balance of the applicable cryptocurrency tokens stored at your DAOLABS protocol-compatible wallet address ("**Cryptocurrency Wallet**") to complete any such transaction on DAOLABS protocol or the Ethereum network before initiating such a transaction.

7. Access to DAOLABS Application.

Access to the Site is provided on an "AS IS" and "as available" basis only. We do not guarantee that the Site, or any content on it, will always be available or uninterrupted. From time to time, access may be interrupted, suspended, or restricted, including because of a fault, an error, or unforeseen circumstances, or because we are carrying out planned maintenance. With regards

to the Sites; We reserve the right to limit the availability of the Site to any person, geographic area or jurisdiction we so desire and/or to terminate your access to and use of the Site, at any time and in our sole and absolute discretion. We may remove or amend the content of the Site at any time. Some of the Site content may be out of date at any given time and we are under no obligation to update it. We do not guarantee that the Site, or any content on it, will be free from errors or omissions.

Registered Users of DAOLABS Properties, and not DAOLABS, are similarly responsible for all Content

that you and they Make Available through DAOLABS Properties ("User Content").

You acknowledge that DAOLABS has no obligation to pre-screen Content (including, but not limited to, User Content), although DAOLABS reserves the right in its sole discretion to pre-screen, refuse or remove any Content. By entering into the Agreement, you hereby provide your irrevocable consent to such monitoring. You acknowledge and agree that you have no expectation of privacy concerning the transmission of Your Content, including without limitation chat, text, or voice communications. As per the CCPA, your personal information is de-identified.

The purpose of DAOLABS potentially using Fathom Analytics is to understand the Application website traffic in the most privacy-friendly way possible so that DAOLABS can continually improve the Application.  ("Notice Address"). DAOLABS will send its notice

to you by the Discord handle provided by you in connection with the aforementioned notice or to the Cryptographic address used in connection with the Application via the aforementioned <https://chat.blockscan.com/>.

Binding Arbitration. If you and DAOLABS are unable to resolve a Dispute through informal negotiations, either you or DAOLABS may elect to have the Dispute (except those Disputes expressly excluded below) finally and exclusively resolved by confidential binding arbitration, and not in a class, representative or consolidated action or proceeding. In such event, these Terms memorialize a transaction in interstate commerce; (i) the Federal Arbitration Act (9 U.S.C. § 1, et seq.) governs the interpretation and enforcement of this Section; and (ii) this Section shall survive termination of these Terms.

Any election to arbitrate by one party shall be final and binding on the other, and your grounds for appeal are limited. YOU UNDERSTAND THAT ABSENT THIS PROVISION, YOU WOULD HAVE THE RIGHT TO SUE IN COURT AND HAVE A JURY TRIAL. The arbitrator may award you the same damages and relief as a court sitting in proper jurisdiction could, and may award declaratory or injunctive relief. In addition, in some instances, the costs of arbitration could exceed the costs of litigation and the right to discovery may be more limited in arbitration than in court. The arbitration shall be commenced and conducted under the Commercial Arbitration Rules of the American Arbitration Association ("AAA") and, where appropriate, the AAA's Supplementary Procedures for Consumer Related Disputes ("AAA Consumer Rules"), both of which are available at the AAA website. The determination of whether a Dispute is subject to arbitration shall be governed by the Federal Arbitration Act. The parties agree that the arbitrator shall have exclusive authority to decide all issues relating to the interpretation, applicability, enforceability and scope of this arbitration agreement. Your arbitration fees and your share of arbitrator compensation shall be

governed by the AAA Rules and, where appropriate, limited by the AAA Consumer Rules. If such costs are determined by the arbitrator to be excessive, you will pay all arbitration fees and expenses. The arbitration may be conducted, at the option of the claimant, either in person or by video conference. The arbitrator will make a decision in writing, but need not provide a statement of reasons unless requested by a party. The arbitrator must follow applicable law, and any award may be challenged within a reasonable period of time (not to exceed 30 days) if the arbitrator fails to do so. Except as otherwise provided in this Agreement, you and DAOLABS may litigate in court to compel arbitration, stay proceedings pending arbitration or to confirm, modify, vacate or enter judgment on the award entered by the arbitrator. Judgment upon any award rendered by the arbitrator(s) may be entered and enforcement obtained thereon in any court having jurisdiction. All arbitration proceedings shall be closed to the public and confidential and all records relating thereto shall be permanently sealed, except as necessary to obtain court confirmation of the arbitration award. Each party shall have the right to participate by video conference in order to minimize travel and expense burdens. Subject to the terms and conditions of these Terms, the arbitrator shall have authority to grant any form of appropriate relief, whether legal or equitable in nature, including specific performance.

Restrictions/No Class Actions. You and DAOLABS agree that any claim brought in connection with a Dispute, whether resolved through arbitration or not, will be brought between DAOLABS and you individually, and that you may not assert any such claim against DAOLABS as plaintiff or class Member in any purported class or representative proceeding. To the fullest extent permitted by law, (1) no arbitration shall be joined with any other; (2) no Dispute between you and DAOLABS is to be arbitrated on a class-action basis or will utilize class action procedures; and (3) you may not bring any Dispute in a purported representative capacity on behalf of the general public, other Users of the Site or any other persons. If this specific provision is determined to be unenforceable, then the entirety of this

Arbitration section will be null and void.

Exceptions to Informal Negotiations and

Arbitration. You and DAOLABS agree that the following Disputes are not subject to the above provisions concerning informal negotiations and binding arbitration:

(1) any Disputes seeking to enforce or protect, or concerning the validity of, any of your or DAOLABS' intellectual property rights; and (2) any claim for injunctive relief.

Effect of Changes on Arbitration. Notwithstanding the provisions of these Terms, if DAOLABS changes any of the terms of this Arbitration section after the date you first accepted these Terms (or accepted any subsequent changes to these Terms), you may reject any such change by sending us written notice (including by electronic mail to the aforementioned Notice Address via <https://chat.blockscan.com/>) within 30 days of the date such change became effective, as indicated in the "Last Updated" date above or in the date of DAOLABS' e-mail to you notifying you of such change (whichever is earlier). By rejecting any change, you are agreeing that you will arbitrate any Dispute between you and DAOLABS in accordance with the terms of this Arbitration section as of the date you first accepted these Terms (or accepted any subsequent changes to these Terms).

Small Claims Court. Notwithstanding the foregoing, you may bring an individual action in the small claims court of your state or municipality if the action is within that court's jurisdiction and is pending only in that court.

Release. You hereby release DAOLABS, affiliates, Service Provider, and their successors from claims, demands, any and all losses, damages, rights, and actions of any kind, including personal injuries, death, and property damage, that is either directly or indirectly related to or arises from your use of DAOLABS' DAPP, including but not limited to, any use of any information, ratings, rankings, scores, tips, or advice Made Available via DAOLABS' DAPP and any reliance thereon of any kind arising in

release, or any kind arising in connection with or as a result of the Agreement or your use of DAOLABS' DAPP. If you are a California

resident, you hereby waive California Civil Code Section 1542, which states, "A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party." The foregoing release does not apply to any claims, demands, or any losses, damages, rights, and actions of any kind, including personal injuries, death, or property damage for any unconscionable commercial practice by a DAOLABS Party or for such party's fraud, deception, falsehood, promise, misrepresentation, or concealment, suppression, or omission of any material fact in connection with the DAPP or DAOLABS' Site or any Services provided hereunder.

15. Governing Law.

These Terms and all aspects of your use of the Site shall be governed by and construed in accordance with the internal laws of the *United States and the State of Delaware* governing contracts entered into and to be fully performed in *Delaware* (i.e., without regard to conflict of law's provisions) regardless of your location except that the Arbitration section above shall be governed by the Federal Arbitration Act. For the purpose of any judicial proceeding to enforce an arbitration award or incidental to such arbitration or to compel arbitration, or if for any reason a claim proceeds in court rather than in arbitration, you hereby submit to the non-exclusive jurisdiction of the state and Federal courts sitting in *Georgetown, Delaware*, and agree that service of process in such arbitration or court proceedings shall be satisfactorily made upon a party if sent by certified, express or registered mail addressed to it at the address set forth in the books and records of DAOLABS, or if no such address has been provided, by e-mail to the e-mail address, or by notice via Discord, or by the aforementioned chat to the Notice Address provided by the relevant party to DAOLABS in

connection with its use of the Site. With respect to any Disputes not subject to informal dispute

resolution or arbitration (as set forth above), you agree not to commence or prosecute any action in connection therewith other than in the state and Federal courts located in *Georgetown, Delaware*, and you hereby consent to, and waive all defenses of lack of personal jurisdiction and forum non conveniens with respect to, venue and jurisdiction in the state and Federal courts located in *Georgetown, Delaware*. To the extent non-U.S. laws mandate a different approach with respect to governing law, venue, statute of limitation, and dispute resolution method with respect to certain non-U.S. persons, each such required standard shall be applied, but all other provisions under this section shall remain in full force.

16. General.

If any clause or part of any clause of these Terms is found to be void, unenforceable or invalid, then it will be severed from these Terms, leaving the remainder in full force and effect, provided that the severance has not altered the basic nature of these Terms.

No single or partial exercise, or failure or delay in exercising any right, power or remedy by us shall constitute a waiver by us of, or impair or preclude any further exercise of, that or any right, power or remedy arising under these terms and conditions or otherwise.

If any of the provisions in these Terms are found to be illegal, invalid or unenforceable by any court of competent jurisdiction, the remainder shall continue in full force and effect.

DAOLABS shall not be liable for any unforeseeable event beyond its reasonable control not caused by its fault or negligence (each, a "force majeure event"), which causes DAOLABS to be unable to perform its obligations under these Terms, and which it has been unable to overcome by the exercise of its due diligence, provided that DAOLABS shall use reasonable efforts to avoid or

remove such causes or nonperformance, shall
suspend performance only for such period of time
as is necessary as a result of such force majeure
event and shall resume performance as quickly as
reasonably possible.

All disclaimers, indemnities and exclusions in
these Terms shall survive termination of the Terms
and shall continue to apply during any suspension
or any period during which the Site is not
available for you to use for any reason
whatsoever.

These Terms and the documents referred to in them
set out the entire agreement between you and us
with respect to your use of the Site, DAOLABS and
the services provided via the Site and supersede
any and all prior or contemporaneous
representations, communications or agreements
(written or oral) made between you or us.

About.

The DAO and its community are building a platform for creating blockchain-based treasuries and communities which can operate at any scale.

- If you would like to join the DAO as a contributor, read How to Contribute.
- If you are building (or would like to build) a sustainable, high-impact project with a focus on social good, reach out on Discord.

Movement DAO uses proven applications of blockchain to align economic incentives within communities and empower them to solve problems as a collective; Movement DAO enables communities to run programmable and community funded treasuries by providing tooling and a seeded endowment.¹ The community is just as vital as the developer team not only to the success of Movement DAO, but also for the DAO to maintain true decentralization. The community must build and maintain a level of trust by quickly highlighting any instances of fraudulent or malicious activity. Each community member has a duty to prevent, mitigate, and resolve

About.

Purpose.

Disclaimers.

With that said, in order to be sure that the DAO and the community are aligned in their mission to use the Movement tools for positive contributions and impacts on the world, Movement DAO holds veto powers on any movements or initiatives that break the community guidelines.³

Purpose.

The primary purpose of the DAO is to enable Ethereum treasuries which are:

- transparent;
- turnkey;
- extensible;
- scalable;
- community-focused;
- compatible with existing banking infrastructure; and,
- legally compliant.⁴

The DAO's applications are coordinated through Gnosis Safes, the Juicebox protocol, and smart contracts.⁵

The DAO is building:

- legal frameworks which enable associations and entities to utilize cryptocurrencies;
- legal structure/governance document generators;
- diverse NFT tooling for creators and communities;
- tools for treasury diversification and token management;
- on-chain and off-chain governance tools;
- reputation scoring and ranking for treasuries, communities, and individuals; and,
- a Cryptocurrency wallet solutions which:
 - simplifies Cryptocurrency on/off-boarding;
 - enhances Cryptocurrency wallet management;
 - natively implements Multi-signature wallets, including Gnosis Safes;
 - simplifies Multi-signature management and interaction; and,
 - integrates with traditional banking and credit/debit cards.

While also:

- supporting JuiceboxDAO and the Juicebox protocol's community;
- enabling and fostering public goods and community-focused projects;
- developing sustainable public/private good community models; and,
- developing a sustainable endowment fund for Member projects and Core Contributors.

The DAO is focused and determined on creating a sustainable, long-term oriented project, with the hopes of allowing the community to grow and flourish with it. Therefore, the founder's tokens will be locked for 6 years from launch, meaning there is no return on investment to the founders until the platform is fully built, operational and successful in its objectives. The system also establishes trust with its community by adopting state of the art mechanism design concepts.⁶

The DAO enables treasury creators to create and deploy tightly integrated Crypto-native products, thereby providing rich, sustainable opportunities for treasuries (and contributions to those treasuries) to thrive and scale. The DAO also oversees and manages the DAO's Endowment which funds the DAO's applications, manages the DAO's endowment capital, and provides ecosystem grants as proposed by the DAO's contributors.⁷ Given each Movement has its own property and funds which are managed by Movement, and adapters and extensions which govern how the funds are collected, distributed, and managed are all areas which require extensive design, analysis, and audit before it is employed on Ethereum Mainnet.⁸

The DAO is a Delaware Unincorporated Nonprofit Association, operating with contributions to its Gnosis Safe, which amount to \$16,271,642.46 as of August 10, 2022. The initial signers of the DAO's Gnosis Safe were coordinated by dao lawfirm.eth, the DAO's Service Provider. DAOLABS, LLC. provides all the intellectual property the DAO will use via a perpetual, non exclusive, royalty free license and right, and all ancillary and subsidiary rights therein within the field of use of the DAO's non profit charter. DAOLABS, Inc. operates with an exclusive license from DAOLABS, with the exception that the field of use for the DAO tooling is targeted towards vertical and consumer for profit applications. Ownership in the DAOLABS entities

is further detailed in the DAO governance.

Disclaimers.

Note that the DAO reserve the right to modify its Purpose, or associated Terms at any time in our sole discretion⁹. Any changes will be posted on our website at <https://move.xyz> and will become effective immediately upon posting. It is your responsibility to check for updates periodically.

How to Contribute

The DAO strives towards an open contribution model. Contributors do not need to present a resumé, an application, or any identifying information to begin contributing. DAO asks that contributors consider the following process for becoming a paid contributor.

Getting Started

New contributors are advised to introduce themselves in the [Discord server](#) and to familiarize themselves with areas they would like to contribute to. New contributors should also reach out to active contributors on Discord to figure out where the DAO needs help, or to propose new objectives. While not required, new contributors may provide a traditional resumé or link to a portfolio, such as their GitHub profile.

Trial Payouts

Contributors who have completed some work¹ and familiarized themselves with the DAO's ongoing efforts are encouraged to propose a one time trial payout. These proposals should detail work which has already been completed and plans for upcoming contributions to the DAO. Read the [Governance Process](#) to learn more.

Recurring Payouts

Contributors who have completed one or more trial payouts² are advised to propose an ongoing role and

Trial Payouts

Next Steps

contributors are advised to propose an ongoing role and payout for themselves if desired. This proposal should detail payout mechanics, responsibilities, task-based

objectives, and long-term goals. Sunset clauses are required. A current contributor must endorse the proposal—a signature of the proposal is sufficient.

Next Steps

1. Read recent Discord messages and governance proposals to familiarize yourself with high level ongoing projects.
2. Reach out to active contributors in channels related to areas you would like to contribute to. Ask what you can help with or propose new objectives for the DAO.
3. Participate in the DAO for 1 2 weeks before proposing a payout.

Footnotes

1. Any work completed by a contributor prior to receiving a payout is considered "intern" or "volunteer" work. This work is done to evaluate work ethic, work product, and work quality. This work takes place in lieu of an interview or resumé evaluation. This period takes as long as necessary to evaluate the work commensurate with the position sought. ↵
2. Prospective trial contributors' proposals must be endorsed by a current contributor to be ratified. All contributors (including trial contributors) are expected to execute consulting documents such as independent contractor agreement, innovation agreement, and any other documents which maybe necessary for work product assignment or compensation. ↵

Genesis

Background

In December of 2021, a number of individuals collectively expressed interest in creating an experiment through the DAO's Service Provider dao-lawfirm.eth.

The thesis:

- Could a new type of application framework, relying on smart contracts for organizational governance and accounting, operate in a completely decentralized way?
- Could decentralized applications and smart contracts facilitate greater change than traditional tools when addressing the needs of individuals and scaling to millions of communities?

As of August 14, 2022, under 100 unique externally owned addresses (EOA) and Gnosis Safes seeded over \$16.5m into the DAO Gnosis Safe ("Multi-signature wallet" or "Multi-sig").¹ dao-lawfirm.eth, together with an appointed handful of individuals ("initial signers"), established the following guidelines:

2. dao-lawfirm.eth will retain a veto right in order to protect governance during the "slow-start"²; and,
3. the DAO shall bootstrap a community of contributors and developers to develop DAO tooling

Initial Signer
Requests

4. shall value the privacy and work product of its Members;
5. shall recommend a structure to ensure compliance to applicable laws and regulations;
6. must implement accounting and governance prior to consistent access to capital; and,
7. shall not have any information asymmetry regarding any governance process.

In order to achieve these wishes, the following steps were taken:

1. dao-lawfirm.eth created trusts and Gnosis Safes to fund the Multi-sig account;
2. Multi-sig signers were appointed, and funds were secured to support the DAO until sufficient tooling could be deployed; and,
3. proposals for payouts to individuals were limited to 3 months periods.

Initially, the Multi-sig threshold was set to **3 of 5 signers**, and the following signers were appointed:

Future multisig reconfigurations are subject to the DAO governance process.

Additional Considerations

Governance NFT

A Governance NFT was airdropped to the top 1,000 active decentralized governance pioneers, the juicebox.money community, and to the Tribute DAO community as an invitation to participate in DAO governance; and Twitter postings detailed the purpose. Additionally, individuals who consistently participated in the DAO's Discord, drafted proposals, and engaged in the community were given Governance NFTs at no cost.² The NFT was a derivative of Bored Ape No. 1420.³

Treasury Oversight

As of August 2022, the DAO's Gnosis Safe has not yet implemented any significant asset diversification strategies. The DAO should appoint a treasury committee in which individuals with prior experience managing at least \$1,000,000 worth of cryptocurrency over an extended length of time (either individually or through Multi-sig wallets) can make written recommendations to the DAO. Community/contributor recommendations endorsed by committee Members should also be considered.

See Governance MIP-001 (IPFS).

Initial Signer Requests

dao-lawfirm.eth, have made specific feature requests for the initial application:

- multi-token treasuries;
- bonding curve token emissions;
- integration with certain DeFi protocols;
- escrow voting strategies; a path to on-chain governance;
- NFT tooling for creators; and
- legal compliance,

and have also requested an expansion of the Multi-sig. Governance migration to voting escrow is essential, as dao-lawfirm.eth desires to signal their long-term commitments. dao-lawfirm.eth requested a follow up

presentation within **60 days**,² to present a timeline for the DAO tooling version 1.0 release.

Footnotes

1. June 15 through 30, 2022, about \$450,000 DAI was swapped for ETH and has appreciated. This was included in the overview of the treasury balance. The Multi sig transaction history is available at Gnosis. ↵
2. The slow start "veto" was inspired by nouns.wtf. See the Governance 'Slow Start' section. ↵ ↵²
3. Movement DAO's Ascended Ape Collection: as of August 10, 2022, there were 1.1k owners. All of the original Gnosis contributors were airdropped NFTs. The DAO's governance proposal and temperature-check's Snapshot voting strategy relies exclusively on the NFT, while the proposal ratification strategy is a weighted whitelist based on contributions to the Gnosis. This enables virtually anyone with interest to submit a proposal and participate in the DAO. See the Governance Process. ↵
4. The presentation to the initial-signers is scheduled for November of 2022, and is expected to be completed by December of 2022. ↵

Governance Airdrop

Initializing the DAO governance participation with experienced and active DAO contributors.

Upon initialization of the DAO and in a gesture of good faith, and a symbol of appreciation for those that have contributed to the DAO governance space, the following individuals were airdropped the DAO's governance token. Individuals who participated in Discord, either in Town halls, messaging, or engagement were additionally given the DAO's governance token in order decentralize the governance.

Governance Process

The DAO is governed by its community, as expressed through MAPE NFT voting.¹

Multi sig transactions and signatures, as well as updates to DAO processes, must be ratified by this process prior to their implementation.

Governance Process

Phase 0: Discussion.

Phase 1: Temperature Check.

Phase 2: Consensus.

Phase 3: Execution.

Emergency Governance.

Phase 0

Authors are encouraged to create a proposal discussion thread in the #proposal-workshop channel of the DAO Discord to receive the community's feedback.

You can use the proposal template as a starting point. When writing your proposal, try to be as detailed as possible in your specification. Only include what is necessary—short, specific proposals are best.

Phase 1

Once finalized, authors can submit their proposals to the DAO's Temperature Check Space. The Temperature Check Space grants addresses one vote per MAPE NFT.

As the DAO's Service Provider, dao lawfirm.eth maintains the right to revoke Temperature Check proposals which are malicious, exploitative, or otherwise in bad faith.

Proposals in the Temperature Check Space will be

If you need help uploading a proposal to Snapshot, tag a contributor in Discord.

Phase 2

Every 28 days, proposals with at least 30 "For" votes in the Temperature Check Space are moved to the DAO's Consensus Space for seven (7) days of voting.

In the Consensus Space, addresses receive one vote per dollar contributed to the Multi sig from February July 2022 inclusive.

As the DAO's Service Provider, dao lawfirm.eth maintains the right to revoke Consensus proposals which are malicious, exploitative, or otherwise in bad faith.

Phase 3

Once voting closes, proposals with at least 66% approval are queued for execution by the Multi-sig. "Abstain" votes are not included in this calculation.

Emergency Governance.

In an emergency scenario, the Multi-sig shall take onchain actions if explicit public approval from 80 percent or more of Multi-sig signers, or explicit public approval or instructions from the dao-lawfirm.eth are received.

The dao lawfirm.eth signer also maintains the Vetoer role, which allows dao-lawfirm.eth or tankbottoms.eth to take on-chain actions if any governance proposal is deemed malicious, exploitative, or otherwise in bad faith. Likewise, if there is suspected fraud, impending loss of funds, or malicious activity against the interests of the DAO, the Authorized Members, individually, or collectively, they may take any and all on-chain or off-chain actions to protect the DAO's treasury and assets - including interfering with the execution of a proposal,

approving a proposal, reconfiguring Snapshot, or reconfiguring the Multi-sig. See Security,

Security Precautions, Service Providers and Governance.

dao-lawfirm.eth may provide a summary and an explanation of any such action(s) within 72 hours of its execution.

Definitions

A **"51% attack"** is a type of attack on a decentralized network whereby a group gains control of the majority of nodes. A 51% attack would such a group to defraud the blockchain by reversing transactions and "double spending" Ether and other tokens.

An **"Account"** is an object containing an address, balance, nonce, and optional storage and code. An account can be a contract account or an externally owned account (EOA).

"Act" or "The Act" refers to the Delaware Uniform Unincorporated Nonprofit Association Act, Del. Code Ann. Tit. 6, §§ 1901-1916 inclusive.

"Address" most generally, represents an EOA or contract that can receive ("destination address") or send ("source address") transactions on the blockchain. More specifically, it is the rightmost 160 bits of a Keccak hash of an ECDSA public key.

"Affiliate" means, with respect to any Person, any other Person controlling, controlled by, or under common control with such Person; in such context, "control" means the possession, directly or indirectly, of the power to direct the management or policies of another, whether through the ownership of voting securities, by contract, or otherwise.

PLAINTIFF0003501

SECURITY TERMINALS, ALLOW SECURING AND UNLOCKING, "Allow Terminal Migrations", and "Allow Controller Migration" each refer to different Juicebox protocol

functions which Juicebox Projects can enable or disable each Funding Cycle. By default, these functions are disabled.

"Amendments" conveys that any provision of this Charter may be amended, waived or modified only upon a vote in favor of such amendment, waiver or modification by the DAO Members through the Designated Smart Contract.

"Application Binary Interface (ABI)" is the standard way to interact with contracts in the Ethereum ecosystem, both from outside the blockchain and for contract-to-contract interactions.

"Audit" refers to a testing process for potential security improvements or other improvements to a new token, project, product, or offering, or for potential improvements to an existing token, project, product, or offering. Testing networks ("Testnets" or "Test nets") can be used to test the viability and vulnerability of new ideas, concepts, code, and processes before those ideas, concepts, code, or processes are deployed to other networks.

"Ballot" or "Reconfiguration Ballot" refers to Ethereum Smart Contracts which adhere to IJBFundingCycleBallot. Ballots specify the conditions that must be met for any proposed funding cycle reconfiguration to take effect. A Ballot can be written to incorporate strict community voting requirements in order to make funding cycle changes, or to simply add a required buffer period between when a change is proposed and when it can take effect.

"Ballot Redemption Rate" refers to a custom Redemption Rate (See Redemption Rate) which overrides the typical Redemption Rate if a Reconfiguration Ballot is currently active.

"Claim" means any past, present, or future dispute, claim, controversy, demand, right, obligation, liability, action, or cause of action of any kind or nature.

"Consensus Attack" refers to an attack that: (i) is undertaken by or on behalf of a block producer who controls, or a group of cooperating block producers who

collectively control a preponderance of the means of block production on the Designated Blockchain Network; and (ii) has the actual or intended effect of: (A)

reversing any transaction made to or by the Designated Smart Contract after Confirmation of such a transaction, including any "double spend" attack having or intended to have such effect; or (B) preventing inclusion in blocks or Confirmation of any transaction made to or by the Designated Smart Contract, including any "censorship attack," "transaction withholding attack" or "block withholding attack" having or intended to have such effect.

"Consensus Rules" means the rules for transaction validity, block validity, and determination of the canonical blockchain that are embodied in the Designated Client.

"Confirmation" of a transaction shall be deemed to have occurred if and only if such transaction has been recorded in accordance with the Consensus Rules in a valid block whose hashed header is referenced by at least 30 subsequent valid blocks on the Designated Blockchain.

"Construction": Any rule of construction to the effect that ambiguities are to be resolved against the drafter shall not be applied in the construction or interpretation of this Charter. This Charter constitutes the entire agreement among the DAO Members with respect to the subject matter hereof and supersedes all prior agreements and understandings, both written and oral, among the DAO Members with respect to the subject matter hereof.

"Contract" means any: (i) written, oral, implied by course of performance or otherwise or other agreement, contract, understanding, arrangement, settlement, instrument, warranty, license, insurance policy, benefit plan or legally binding commitment or undertaking; or (ii) any representation, statement, promise, commitment, undertaking, right or obligation that may be enforceable, or become subject to an Order directing performance thereof, based on equitable principles or doctrines such as estoppel, reliance, or quasi-contract.

"DAO" means Decentralized Autonomous Organization.

"DAO" or "The DAO" may refer to Movement DAO, a Delaware Unincorporated Nonprofit Association. The DAO

may choose to follow the Unincorporated Nonprofit Association Act under Nevada, Delaware, Washington or

another state where the Uniform Unincorporated Nonprofit Association Act of 2008 was adopted.

"DAO Expenses" refers to costs and expenses related to the activities, maintenance and operation of the DAO. See Section 7(b)(i) of The Agreement.

"DAO Property" means any Token or other asset, right or property licensed to or on deposit with or owned, held, custodied, controlled or possessed by or on behalf of the DAO, including any Token on deposit with or held, controlled, possessed by or on deposit with the Designated Smart Contract.

"Dapp" refers to online portals or other interactive software used by the DAO, individuals, and any other entities to create, manage, contribute to, or otherwise interact with Juicebox Treasuries, the Juicebox Protocol, or any other DAO services. Governance activities performed within the DAO's Snapshot Spaces on Snapshot.org or other Snapshot servers are also considered to be Dapp activities.

"Data Source" refers to Ethereum Smart Contracts which adhere to IJBFundingCycleDataSource. A Data Source can customize what happens when a payment to a Juicebox Project is attempted during a Funding Cycle, and what happens when a Token redemption is attempted during a Funding Cycle.

"Discount Rate" refers to the percent by which to automatically decrease the subsequent cycle's Weight from the current cycle's Weight. The Discount Rate is not applied during funding cycles where the Weight is explicitly reconfigured.

"Disputes"; "Mandatory Arbitration". Any Legal Proceeding, Claim or other dispute or controversy arising out of or relating to this Agreement, its enforcement, or the breach thereof shall be finally resolved by binding arbitration in accordance with the Arbitration Procedures; provided, however, that any DAO Member may seek injunctive relief in aid of arbitration in order to prevent irreparable harm or preserve the status quo. EACH DAO MEMBER HEREBY IRREVOCABLY WAIVES ALL RIGHT TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM WHETHER BASED ON CONTRACT, TORT OR

OTHERWISE) ARISING OUT OF OR RELATING TO THIS CHARTER, THE DESIGNATED SMART CONTRACT, THE DAO MATTERS OR THE ACTIONS OF THE DAO MEMBERS IN THE NEGOTIATION, ADMINISTRATION, PERFORMANCE AND ENFORCEMENT OF THIS AGREEMENT.

"Distribution Limit" and "Funding Target" refer to the amount of tokens that a Juicebox Project can distribute per Funding Cycle, and the currency which that amount is denominated in.

"Designated Blockchain" refers to, at any given time, the version of the digital blockchain ledger that at least a majority of nodes running the Designated Client on the Designated Blockchain Network recognize as canonical as of such time in accordance with the Consensus Rules. For the avoidance of doubt, the "Designated Blockchain" does not refer to e.g. Ethereum Classic or any digital blockchain ledger commonly known as a "testnet".

"Designated Blockchain Network" means the Ethereum mainnet (networkID:1, chainID:1), as recognized by the Designated Client.

"Designated Client" means the Official Go Ethereum client available at <https://github.com/ethereum/go-ethereum>, Infura, Alchemy, or other providers, as long as it is compatible with the aforementioned Designated Blockchain Network.

"Designated Smart Contract" means the smart contracts referenced in contract addresses on the Designated Blockchain.

"Distributed DAO Property" means any asset, right or property that was once DAO Property and has been distributed to a DAO Member.

"Established Practices" refers to the practices used by an unincorporated nonprofit association without material change during the most recent five years of its existence, or if it has existed for less than five years, during its entire existence.

"Externally Owned Accounts (EOAs)" are accounts that are controlled by users who control the private keys for an account, typically generated using a seed phrase. Externally owned accounts are accounts without any code associated with them. Typically these accounts

"Fraud Proof" is a security model for certain layer 2 solutions where, to increase speed, transactions are rolled up into batches and submitted to Ethereum in a single transaction. They are assumed valid but can be challenged if fraud is suspected. A Fraud Proof will then run the transaction to see if fraud took place. This method increases the amount of transactions possible while maintaining security. Some rollups use validity proofs.

"Funding Cycle Duration" is how long each funding cycle lasts (specified in seconds). All funding cycle properties are unchangeable while that cycle is in progress. In other words, any proposed reconfigurations can only take effect during a subsequent cycle. If no reconfigurations were submitted by the project owner, or if the proposed changes fail the current funding cycle's Ballot, a copy of the latest funding cycle will automatically start once the current one ends. Funding cycle changes pursuant to a Discount Rate or other certain onchain parameters will still take effect in such a funding cycle. A cycle with no duration lasts indefinitely, and reconfigurations can start a new funding cycle with the proposed changes right away.

"Funding Cycle" and "Cycle" refer to the time-locked rules according to which a Juicebox Project wishes to operate. Funding Cycles are typically represented as a JBFundingCycle data structure, and are usually managed by the JBFundingCycleStore contract. Funding Cycle duration can be specified in seconds ("Funding Cycle Duration"). Funding Cycle properties are unchangeable while the cycle is in progress. In other words, any proposed reconfigurations can only take effect during the subsequent cycle. If no reconfigurations were submitted by the Project Owner, or if proposed changes fail the current cycle's Ballot, a copy of the latest Funding Cycle will automatically start once the current one ends. Funding cycle changes pursuant to a Discount Rate or other certain onchain parameters will still take effect in such a funding cycle. A Funding Cycle with no duration lasts indefinitely; valid reconfigurations to Funding Cycles with no duration immediately start a new Funding Cycle with the proposed changes once approved by a Reconfiguration Ballot if necessary.

"Gas" A virtual fuel used in Ethereum to execute smart contracts. The EVM (i.e. the Ethereum Virtual Machine) uses an accounting mechanism to measure the consumption of gas and limit the consumption of computing resources (see Turing complete).

"Governing Principles" refers to the agreements, whether oral, in a record, or implied from established practices, or in any combination thereof, which govern the purpose or operation of an unincorporated nonprofit association and the rights and obligations of its Members and managers. The term includes any amendment or restatement of the agreements constituting the Governing Principles.

"Governance Rights" are the entire interest of a Member in the DAO, as measured by a Member's Tokens, including, without limitation, all rights and obligations contemplated or agreed to under this Agreement, and any right to vote on, consent to, or otherwise participate in any decision or action of or by the Members granted by this Agreement or the Act. Member's Governance Rights are subject to DAO Governance.

"Gnosis Safe" refers to the Gnosis Safe Multisig Wallet, a smart contract which allows multiple Ethereum addresses to manage a single Ethereum address. The Gnosis Safe is used to manage the DAO's treasury.

"Gwei" is short for gigawei, a denomination of ether, commonly utilized to convey gas prices. 1 gwei = 10⁹ wei. 10⁹ gwei = 1 Ether.

"HD Wallet Seed" is a value used to generate the master private key and master chain code for an HD wallet. The wallet seed can be represented by mnemonic words, making it easier for humans to copy, back up, and restore private keys.

"Hold Fees" refers to the fee holding process: by default, Protocol Fees are paid automatically when funds are distributed from a Juicebox Treasury to an Ethereum address. During Funding Cycles configured to hold fees, this fee amount is set aside instead of being immediately processed. Projects can reclaim their held fees by adding funds to their Treasury equal to the amount of funds distributed to Ethereum addresses while fees were being held. Otherwise, Juicebox DAO or

the project can process these held fees at any point to issue Juicebox Governance Token ("JBX") at the current rate. This allows a project to withdraw funds and later add them back into their the DAO treasury without incurring fees. This applies to both Distributions from the Distribution Limit and from the Overflow Allowance.

"Legal Order" means any restraining order, preliminary or permanent injunction, stay or other order, writ, injunction, judgment or decree that either: (i) is issued by a court of competent jurisdiction, or (ii) arises by operation of applicable law as if issued by a court of competent jurisdiction, including, in the case of clause "(ii)" an automatic stay imposed by applicable law upon the filing of a petition for bankruptcy.

"Legal Proceeding" means any private or governmental action, suit, litigation, arbitration, claim, proceeding (including any civil, criminal, administrative, investigative or appellate proceeding), hearing, inquiry, audit, examination or investigation commenced, brought, conducted or heard by or before, or otherwise involving, any court or other governmental entity or any arbitrator or arbitration panel.

"Liability" means any debt, obligation, duty or liability of any nature (including any unknown, undisclosed, unmatured, unaccrued, unasserted, contingent, indirect, conditional, implied, vicarious, inchoate derivative, joint, several or secondary liability), regardless of whether such debt, obligation, duty or liability would be required to be disclosed on a balance sheet prepared in accordance with generally accepted accounting principles and regardless of whether such debt, obligation, duty or liability is immediately due and payable. To be "Liable" means to have, suffer, incur, be obligated for or be subject to a Liability.

"Lien" means any lien, pledge, hypothecation, charge, mortgage, security interest, encumbrance, other possessory interest, conditional sale or other title retention agreement, intangible property right, claim, infringement, option, right of first refusal, preemptive right, exclusive license of intellectual property, community property interest or restriction of any nature including any restriction on the voting of any security or restriction on the transfer, use or ownership of any security or other asset

A **"Manager"** is a person that is responsible, alone or in concert with others, for the management of an unincorporated nonprofit association.

"Majority Vote" means the approval of Members holding at least a majority-in-interest of applicable DAO voting Tokens.

"Material Adverse Exception Event" means that one or more of the following has occurred, is occurring or would reasonably be expected to occur:

(i) a Consensus Attack adversely affecting the results or operations of the Designated Smart Contract;

(ii) the Designated Smart Contract having become inoperable, inaccessible or unusable, including as the result of any code library or repository incorporated by reference into the Designated Smart Contract or any other smart contract or oracle on which the Designated Smart Contract depends having become inoperable, inaccessible or unusable or having itself suffered a Material Adverse Exception Event, *mutatis mutandis*;

(iii) a material and adverse effect on the use, functionality or performance of the Designated Smart Contract as the result of any bug, defect or error in the Designated Smart Contract or the triggering, use or exploitation (whether intentional or unintentional) thereof (it being understood that for purposes of this clause "(iii)", a bug, defect or error will be deemed material only if it results in a loss to a DAO Member or the DAO of at least **50%** of such DAO Member's distributable interest in the DAO Property and/or **50%** of the DAO Property);

(iv) any unauthorized use of an administrative function or privilege of the Designated Smart Contract, including: (A) any use of any administrative credential, key, password, account or address by a Person who has misappropriated or gained unauthorized access to such administrative credential, key, password, account or address or (B) any

unauthorized use of an administrative function or privilege by a DAO Member or a representative of a DAO Member; or

(v) the Designated Smart Contract, any of the DAO Members or the DAO Property is subject to a Legal Order that prohibits the Designated Smart Contract (or that, if the Designated Smart Contract were a Person, would prohibit the Designated Smart Contract) from executing any function or operation it would otherwise reasonably be expected to execute.

"Member" means each Person entering into this Agreement as a Member or subsequently admitted as a Member pursuant to the terms of this Agreement, but does not include any Person that has ceased to be a Member of the DAO. If at any time there is only one Member, then all references to "Members" shall be deemed to mean "Member."

A **"Multi-Signature Wallet"** is a smart contract wallet on the Designated Blockchain Network that requires a minimum number of people to approve a transaction before it can occur (M-of-N).

"Non-Fungible Tokens", "NFT", or "NFTs" means a cryptographic token based on the Ethereum ERC-721 standard, the ERC-1155 standard, or a similar standard or other blockchain-based asset.

"Overflow" refers to funds in a Juicebox Treasury in excess of that Treasury's current Distribution Limit. A Project's Overflow can be reclaimed by redeeming that Project's Tokens, subject to a Project's Redemption Rate and other Project configurations.

"Overflow Allowance" The amount of treasury funds that the Project Owner can distribute on-demand. This allowance does not reset each Funding Cycle. Instead, it lasts until the Project Owner explicitly proposes a reconfiguration with a new allowance. The protocol charges a Protocol Fee on funds withdrawn from the network. Overflow allowances can be specified in any currency that the JBPrices contract has a price feed for.

"Payouts", "Distributions", and "Payout Splits" refer to the distribution of Treasury assets from a Juicebox Project Treasury to other Juicebox Projects or to external Ethereum addresses, or addresses on other

blockchains. Payouts to Ethereum addresses invoke fees, the payment of which issues JBX Tokens in accordance with Juicebox DAO's Treasury configurations ("Fees" or "Protocol Fee"). Protocol Fees can range from 0% to 5% of Payout amounts to Ethereum addresses. As of August 4th 2022, Protocol Fees are equal to 2.5% of Payout amounts to Ethereum addresses.

"Pause Payments", "Pause Distributions", "Pause Redemptions", and "Pause Burn" each refer to Treasury functions which Project Owners can pause in a Funding Cycle. These functions are not paused by default.

"Person" means an individual, corporation, association, partnership, joint venture, limited liability company, estate, trust, or any other legal entity.

"Proceeding" means any action, claim, suit, investigation, or proceeding by or before any court, arbitrator, governmental body, self-regulatory agency, or other agency.

"Project", "Juicebox Project", "Treasury", and "Member Project" refer to projects deployed using the Juicebox-compatible protocol including any administrative NFTs, Project configurations, Protocol extensions, digital assets, and tokens associated with those projects.

"Project Owner" and "Project Owners" refer to the individual or individuals with administrative access to configure one or more Juicebox Project(s). This includes individuals with access to Ethereum addresses holding one or more administrative ERC-721s issued by a Smart Contract which adheres to IJBProjects, as well as individuals with access to Ethereum addresses which have been granted permissions to take specific indexed actions via a Smart Contract which adheres to IJBOperatorStore.

"Project Token" and "Token" refer to tokens and token balances stored in a Smart Contract which adheres to IJBTokenStore or tokens which adhere to IJBToken, including tokens issued by the Juicebox Protocol.

"Property" means all property, whether real, personal, or mixed or tangible or intangible, or any right or interest therein.

"Protocol", "Juicebox Protocol", and "Juicebox v2" refer to the Smart Contracts built and maintained by Juicebox DAO, as well as other affiliated Smart

Juicebox DAO, as well as other ancillary smart Contracts ("Protocol Extensions" or "Extensions"). This includes deployed Ethereum mainnet and Rinkeby testnet

Smart Contracts with addresses listed at <https://info.juicebox.money/dev/resources/addresses>, as well as other Smart Contracts with source code copied or modified from the Smart Contracts currently and/or previously available at <https://github.com/jbx-protocol>.

Record, used as a noun, means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

"Redemption Rate", "Redemption Curve", or "Bonding Curve" refers to a bonding curve along which Juicebox Protocol calculates redemption from a Treasury. The Redemption Rate can be configured by a Project Owner each funding cycle. A rate of 100% suggests a linear proportion, meaning X% of treasury overflow can be reclaimed by redeeming X% of the token supply.

"Representative" means a Member, manager, officer, director, partner, employee, or agent.

"Reserved Rate" or "Reserved Tokens" refers to the percentage of newly minted tokens that a project wishes to withhold for custom distributions. The Project Owner can pre-program a list of addresses, other Projects, and contracts that adhere to [IJBSplitAllocator](#) to split reserved tokens between.

"Service Provider" means the Person appointed by the DAO to perform administrative services, responsibilities, and duties to carry on the DAO's operations. The initial Service Provider shall be decided by the DAO.

"Severability" signifies: in the event that one or more of the provisions of this Charter is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the provisions of this Charter operate or would prospectively operate to invalidate this Charter, then and in any such event, such provisions) only will be deemed null and void and will not affect any other provision of this Charter and the remaining provisions of this Charter will remain operative and in full force and effect and will not be affected,

prejudiced, or disturbed thereby.

"Sign" means, with present intent to authenticate or adopt a record:

- (a) to execute or adopt a tangible symbol; or
- (b) to attach to or logically associate with the record an electronic symbol, sound, or process.

"Smart Contract" refers to computer programs stored on the Designated Blockchain or other blockchains.

"Smart multisignature escrow": Bitcoin allows multisignature transaction contracts where, for example, three out of a given five keys are needed to spend the funds in that contract. Ethereum allows for more granularity; for example, four out of five given keys can spend everything in a contract, three out of five keys can be used to spend up to 10% of that contract's funds per day, and two out of five keys can be used to spend up to 0.5% of that contract's funds per day. Additionally, Ethereum multisigs can be asynchronous - two parties can register their signatures on the blockchain at different times, and the last signature will automatically send the transaction.

"Start Timestamp" refers to the time at which a funding cycle is considered active. Projects can configure the start time of their first funding cycle to be in the future and can ensure reconfigurations don't take effect before a specified time. Once a funding cycle ends, a new one automatically starts right away. If there's an approved reconfiguration queued to start at this time, it will be used. Otherwise, a copy of the current funding cycle will be used.

"State" means a state of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession subject to the jurisdiction of the United States.

"Token" means a digital unit that is recognized by the Designated Client on the Designated Blockchain Network as capable of: (i) being uniquely associated with or "owned" by a particular public-key address on the Designated Blockchain Network at each particular block height; and (ii) having Transfers of such digital unit

recorded on the Designated Blockchain.

"Total Available Capital" represents the total deployable capital in treasury reserves that can be used to fund DAO initiatives. Token holders will vote to determine how to use "Total Available Capital" reserves.

"Transfer" includes:

(a) an assignment; (b) a conveyance; (c) a sale; (d) a lease; (e) an encumbrance, including a mortgage or security interest; (f) a gift; and/or (g) a transfer by operation of law. (h) of a Token to a given address (the "Receiving Address") on the Designated Blockchain Network will be deemed to have occurred if and only if it is recognized by the Designated Client on the Designated Blockchain Network that: (i) there has been duly transmitted to the Designated Blockchain Network a new transfer function transaction that: (A) provides for the reassociation of the Designated Token with the Receiving Address; and (B) is signed by a private key that is (or a group of private keys that together are) sufficient to authorize the execution of such transfer function; and (ii) such transaction has been Confirmed.

"Total Value Lock" or "TVL" refers to the total value locked into a Smart Contract or set of Smart Contracts that may be deployed or stored at one or more exchanges or markets. This is used as a measurement of investor deposits. It is the dollar value of all the coins or tokens locked into a platform, protocol, lending program, yield farming program, or insurance liquidity pool.

"Unincorporated Nonprofit Association" means an unincorporated organization consisting of *two* or more Members joined under an agreement that is oral, in a record, or implied from conduct, for one or more common, nonprofit purposes. The term does not include:

(a) a trust; (b) a marriage, domestic partnership, common law domestic relationship, civil union, or other domestic

living arrangement; (c) an organization formed under any other statute that governs the organization and operation of unincorporated associations; (d) a joint tenancy, tenancy in common, or tenancy by the entirety even if the co-owners share use of the property for a nonprofit purpose; or (e) a relationship under an agreement in a record that expressly provides that the relationship between the parties does not create an unincorporated nonprofit association.

Volatility A statistical measure of the price variation of an asset. Newer early-stage projects in the explosive growth stage tend to see very high volatility in the price of their assets in their early days. Volatile assets are often considered riskier than less volatile assets because the price is expected to be less predictable.

"Weight" is a number used to determine how many project tokens should be minted and transferred when payments are received during a Funding Cycle. In other words, Weight is the exchange rate between the project token and a currency (defined by a JBPayoutRedemptionPaymentTerminal) during a Funding Cycle. Project owners can configure this directly or allow it to be automatically derived from the previous funding cycle's Weight and Discount Rate.

"Web3" is an idea for a new iteration of the World Wide Web which incorporates concepts such as decentralization, blockchain technologies, and token-based economics.

"Web3 tools": The key characteristics of Web3 tools may include personal assistance learning, artificial intelligence, multimedia information, interoperability, and semantic nature. Tools used for the governance, tokenization, Membership, voting and operation of a DAO.

"Yield farming" is the practice of staking or lending crypto assets in order to generate returns or rewards in the form of additional cryptocurrency. This application of decentralized finance (DeFi) has skyrocketed in popularity recently thanks to innovations like liquidity mining. In short, yield farming protocols incentivize liquidity providers (LP) to stake or lock up their crypto assets in a smart

contract-based liquidity pool. These incentives can be a percentage of transaction fees, interest from lenders, or a governance token (see liquidity mining). These returns are expressed as an annual percentage yield (APY). As more investors add funds to the related liquidity pool, the value of the issued returns decrease accordingly.

Introduction.

These guiding principles constitute the Agreement ("Agreement") and is entered into by and amongst Members of DAO, also known as Move, an unincorporated nonprofit association organized under the **laws of the State of Delaware.**

The following terms apply when you:

- Click to view or access DAO's Dapp, DAO's online services or any of DAO's sites
- Contribute or transfer cryptocurrencies such as Ethereum, or transfer one or more ERC-20s ("Token" or "Tokens"), ERC-721s ("NFTs"), or other digital assets (collectively, "Cryptographic Currencies") to the DAO
- Become a Member of DAO
- Receive DAO Governance Tokens
- Hold Governance Rights for the DAO
- Interact with or access the DAO's smart contracts in any way
- Provide services to the DAO
- Donate or transfer any property to the DAO
- Or otherwise interact with or access any other of the DAO's services

DAO's governance may occur on Snapshot; for the purpose of this agreement we refer to this as part of the DAO Dapp.

By doing any of the above, you signify your agreement to these terms. If you do not agree to be bound by the Agreement in its entirety, you

may not access, interact with, or use the DAO
Dapp or online services in any way.

Capitalized terms used herein have the meanings ascribed to them in the Definitions. Any terms which are defined herein supersede any definition contained in the associated document.

1. Organization.

(a) Formation. The DAO was formed on *February 1, 2022*. The obligations of Members of the DAO shall be determined pursuant to the Delaware Uniform Unincorporated Nonprofit Association Act, Del. Code Ann. Tit. 6, §§ 1901–1916 inclusive (the "Act"), and this Agreement.

(b) Purpose. The primary purpose of the DAO is to develop programmable, community-focused Ethereum treasury applications which can operate openly on the blockchain at any scale. The DAO additionally develops tooling to interact with existing financial infrastructure (including fiat), digital asset creation (e.g. NFTs), and marketplace applications to enable communities to participate in any type of lawful activity native to or related to Cryptocurrency. The purpose of the DAO is to remain solely within the scope of non-profit and charitable purposes, and purposes outside of this scope are not permitted. Please refer to the companion purpose section of this document for more details. Any terms which are contained herein supersede any definition contained in the associated document.

The DAO is an unincorporated association of individuals, corporations, statutory trusts, business trusts, estates, trusts, partnerships, limited liability companies, associations, joint ventures, and other legal or commercial entities, many of whom, if not all of whom, agree to join together for a common, nonprofit purpose. For the DAO, that purpose is encapsulated in its mission statement.

The DAO is not intended to be or become an entity required to register as an "investment company" as defined in Section 3(a)(1)(A) of the

2. Membership; Governance Rights and Tokens; Limitations.

(a) **Governance Rights.** Governance Rights in the DAO are represented by Project Tokens, with each Token representing a fractional part of the Governance Rights of all Members (or assignees, as the case may be) equal to the quotient of one (1) divided by the total number of Tokens claimed at any time. Member's Governance Rights are subject to DAO Governance.

(b) **Tokens.** As of the date hereof, there shall be an allowance of up to the max of $2^{(256-1)}$ ¹ tokens authorized to represent Membership interests in the DAO, unless otherwise agreed to by the Members via a vote occurring through the Dapp. Membership in the DAO, as defined by Del. Code Ann. Tit. 6, § 1901, shall be voluntary and open to any individual whose purpose or presumed intent is to contribute to the DAO and is willing to accept the responsibilities and terms of Membership. The DAO shall grant the initial Member's governance voting tokens proportional to contributions to the DAO's Gnosis Multi-signature wallet.²

Notwithstanding the foregoing or any other provision of this Agreement, the DAO may provide initial Members Tokens for their role in conceiving and supporting the DAO.

(c) **Limitation to the DAO Protocol Configuration.** The DAO shall not configure its Juicebox Treasury with an undefined Reserved Rate, a Reserved Rate of 0%, a Redemption Rate of 100%, or a Discount Rate other than 0%. The DAO shall not configure its Juicebox Treasury with any parameters that would cause the capital value of Token Redemptions via the Redemption Rate to exceed the cost basis required to issue those Tokens from the DAO's Juicebox Treasury.

(d) **Admission.** The DAO is a decentralized network of Members, and Members collectively may admit or

deny individuals for any arbitrary purpose or lack of purpose.

(i) Initialization. On February 1, 2022, the DAO initiated a distribution of the DAO's NFT Collection to the top one-thousand (1500) addresses on Snapshot via a total usage count of Membership DAOs, authored proposals, and votes cast. The purpose of the NFT distribution was to foster a fair and equitable distribution of the governance NFT, to initialize the DAO community, and garner interest in directing the DAO development efforts. The DAO did not require any Membership contributions or fees to participate in this distribution. Contributions to the DAO's Gnosis Multi-signature wallet were separate. Contributions to the DAO's Multi-signature wallet represents the token distributions based on a computation of Cryptocurrency contributions to Project Tokens.

(ii) Distribution of Member Tokens. All of the DAO's governing Members shall have their Membership determined upon receipt of voting tokens acquired on a public blockchain via contributions to the DAO's **Gnosis Multi-Signature Wallet (Etherscan Mainnet)**

0x143cC0A996De329C1C5723Ee4F15D2a40c1203c6. The tokens are to be distributed on a bonding curve. DAO will operate as a Member Project which will issue Project Tokens to both Gnosis contributors and Member Projects, at rates yet to be determined. Cryptographic Units are used for participating in and improving the governance of the DAO through affirmative votes effectuated via the Designated Smart Contract (defined herein) or more commonly, Snapshot, the popular off-chain voting protocol ("Snapshot") (such processes are "Cryptographic Consensus"). Once the

DAO admission requirements are met, a prospective Member's admission may be put up for a vote held among DAO

Members. The DAO will consistently review admissions, and if necessary, Members may make adjustments to the DAO admission requirements based on their evolving needs and as agreed upon by Cryptographic Consensus.

Notwithstanding, the DAO may admit all individuals who hold the DAO token by capturing an inventory of all current holders and ratifying the Membership at Governance intervals from time to time as registered by Cryptographic Consensus.

The DAO may have more than one Member Tokens which has Membership purpose, such as the Governance NFT available at 0xdd407a053fa45172079916431d06E8e07f655042. The DAO shall authorize or discontinue the use of any Member Tokens from any Cryptographic Units at any time, or use a Member Token for a duration before migrating to another. The DAO, by a majority vote of the DAO Members, shall have discretion in how to fairly and equitably distribute Member Tokens, and/or the service of other governance tokens. The DAO shall, at its discretion, by the advice of the Service Provider, or by the majority vote of the DAO, retire governance tokens, including discontinuing Membership by Members holding the DAO governance token without any further notice.

(iii) Development of the DAO application. Members are herein provided notice that any language within this agreement pertaining to future anticipated governance on additional DAO matters and applications may go through an eventual transitioning regarding the governance tooling and computation. The DAO is developing a governance application

which it intends to use and provide all aspects of to Member Projects before the end of 2022.

(e) Token Liquidity Pools. The DAO shall not create any Liquidity Pools.

(f) Governance Rights and Token Limitations.

Governance Rights and the governance Tokens provide no possibility of profits and losses, no rights to distributions and dividends, and no rights to ownership or management of the DAO. Each Member (or assign, as the case may be) that receives or holds governance Tokens expressly and unequivocally agrees that the Tokens provide no rights to profits and/or losses, that the Tokens do not entitle their holder to distributions or dividends, and that the Tokens do not make their holder an owner or manager of the DAO. Members who provide their Cryptographic Signature upon use of the Dapp shall agree with this section 2(f) explicitly and unequivocally, and will be deemed as to have read, understood, and sought counsel with regard to this section.

(g) Token Reserved Rate. Notwithstanding the foregoing or any other provision of this Agreement, contributors to the DAO shall be entitled to receive Reserved Rate Tokens by a vote of the Members, via the Reserved Tokens list, as defined by the DAO's Juicebox Protocol configuration. Each Member expressly and unequivocally agrees to 2(f) above.

(h) Responsibilities. As of the date hereof, Members are not required to submit to any dues or Membership fees. However, in the event the Members agree otherwise via a vote occurring through the Dapp or Snapshot, each Member shall keep reasonably current in payment of any dues or Membership fees and other financial obligations of Membership, if applicable and determined by the DAO. Each Member shall notify the DAO of a Discord, Twitter, or other acceptable communication channel by which that Member may receive written or electronic materials required or permitted by this document, or shall notify the DAO that such Member lacks the standard acceptable addresses and designate a mutually acceptable form of communication.

If you have received any Tokens or are otherwise a Member, you consent and agree to become legally

bound by this Agreement as both a participant in the DAO and more specifically a DAO "Member".

(i) Information Rights. Members shall have access to all information concerning operational and financial affairs of the DAO via

- **The Gnosis Multi-Signature Wallet**
 - [0x143cC0A996De329C1C5723Ee4F15D2a40c1203c6](https://gnosisscan.io/address/0x143cC0A996De329C1C5723Ee4F15D2a40c1203c6),
- **Etherscan and other Ethereum Block Explorers**
 - <https://etherscan.io/address/0x143cC0A996De329C1C5723Ee4F15D2a40c1203c6>, and
- **Snapshot**
 - <https://snapshot.org/#/movedao.eth>.

Otherwise, the DAO is not required to keep any records concerning legal, accounting, or other affairs, and aside from the above public information, the DAO shall not be required to maintain any additional records. Notwithstanding the foregoing, the DAO may engage with third parties to provide legal services, accounting services, and any record-keeping in order to comply with any legal obligations.

3. Liability.

(a) No Member Liability. Except as otherwise provided in this Agreement or the Act, no Member (or former Member) shall be personally liable for the obligations of the DAO, including any obligations owed by any individual Member in connection with any breach of this Agreement. A debt, obligation, or other liability of the DAO is solely the debt, obligation, or other liability of the DAO. Members (or former Members) are not personally liable, directly or indirectly, by way of contribution or otherwise, for a debt, obligation, or other liability of the DAO solely by reason of being or acting as a Member or acting on behalf of the DAO. The failure of the DAO to observe formalities relating to the exercise of its powers or management of its activities and affairs is not grounds for imposing liability on a Member of the

DAO for a debt, obligation, or other liability of the DAO.

(b) Member Limitations. No Member shall have the right or power:

(i) to cause the dissolution and winding up of the DAO; or

(ii) to demand or receive property, including any Cryptographic Currency or ERC-20 or ERC-721 Tokens ("Cryptocurrency Assets") contributed or otherwise transferred to the DAO, except as agreed to by the Members or otherwise provided herein.

4. Admission of Additional Members.

(a) Subject to the provisions of this Agreement, the Members are authorized to accept additional donations from one or more Members, and to admit other Persons to the DAO as additional Members (each such additional Member and such existing Member is an "Additional Member"). Unless otherwise determined by the Members, any such Additional Members shall be admitted to the DAO only if such Member or Additional Member makes a donation or contribution via the Dapp.

(b) Bound to Agreement. Each person who is to be admitted as an Additional Member pursuant to this Agreement shall agree to be bound by all of the terms of this Agreement as if they were a Member from the inception of the DAO.

5. Management.

(a) Except as otherwise expressly required in this Agreement, the affairs of the DAO shall be carried on and managed exclusively by the Members, who shall have sole and absolute discretion with respect thereto. No Member shall be a manager, as defined under the Act.

(b) Whenever any action, including any approval, consent, decision, determination, or resolution

is to be taken or given by the Members of the DAO under this Agreement or under the Act, it shall only be authorized by a majority vote of the Members via the Dapp or the DAO's Snapshot Spaces, unless otherwise provided herein. Such an authorization may be evidenced by a vote facilitated via the Dapp or the DAO's Snapshot Spaces and one or more smart contracts, or by a written consent, in accordance with this Agreement. The Members intend that any action (which has been duly approved in accordance with this Agreement) taken by the DAO via a Dapp, a smart contract, or the blockchain shall be a valid action of the Members or the DAO, as applicable, and no Member shall challenge the authority or validity of any such action based solely on such a fact.

(c) Except as otherwise expressly required or stated in this Agreement or in the Act, no single Member (in their capacity as a Member) shall be an agent of the DAO, have authority to bind the DAO in any way, or have the authority to enter into any agreement or contract obligating the DAO in any way unless approved via a vote occurring through the Dapp or the DAO's Snapshot Spaces.

(d) To the extent that the Members have approved a document in accordance with the terms of this Agreement and the Act, any Member may hereby be expressly authorized to execute and deliver such a document on behalf of the DAO.

(e) Members may appoint a proxy to vote or otherwise act for the Member with regards to the DAO pursuant to the Dapp or the DAO's Snapshot Spaces.

(f) The DAO has the right to delegate certain technical or administrative responsibilities to third parties and provide them with reasonable compensation.

(g) **Reliance by Third Parties.** Persons dealing with the DAO are entitled to only rely conclusively upon the power and authority of the Members (and any Person to whom the Members have delegated any such power and authority pursuant to this Agreement) by an explicit governance ratification of such power and authority.

Therefore, any acknowledgement that such Member or assign is authorized to act on behalf of the DAO and may bind the DAO or otherwise enter into a binding contract may only be relied upon as evidenced by the DAO governance process as defined by Dapp or the DAO's Snapshot Spaces proposals.

(h) Other Activities. Each Member acknowledges and agrees that in addition to transactions specifically contemplated by this Agreement, and subject to applicable law, certain Members within the DAO and their respective Affiliates and Representatives are each hereby authorized to obtain property or obtain services from, to provide property or provide services to, or otherwise enter into any transaction with certain Members, or any Affiliate or Representative of any of the foregoing Persons, pursuant to clear approval via the Dapp and DAO governance.

6. Withdrawal Rights; Compulsory Withdrawal; Non-Disparagement.

(a) Limited Right to Withdraw. A Member may withdraw at any time by transferring its Tokens to a third party. Such a withdrawal shall be facilitated and executed, in part, using one or more smart contracts, and shall be effective as of the date of transfer. Any withdrawal is irrevocable. Alternatively, a Member may redeem the entirety of the Tokens held by sending the tokens to the Juicebox Protocol, where the tokens will be burned, thereby reducing the total Project Token supply. In return, the Member may receive **some portion** of their initial or cumulative DAO Membership holdings in Ethereum (or other Cryptographic Currency). A Member who burns the entirety of their token holdings shall be deemed to have withdrawn from the DAO. The DAO shall not be obligated to pay any interest or other compensation to a Member who redeems or withdraws its Tokens.

(b) Compulsory Withdrawal. Not in limitation of Section 6(a), Members acting by vote via the Dapp or the DAO's Snapshot Spaces proposals may have any Member withdrawn from the DAO to the extent

that such Members, in their reasonable discretion, determine it to be necessary, desirable, or appropriate, including without limitation to comply with applicable law or regulations, or to avoid a material adverse effect on the DAO or the other Members. For the avoidance of doubt—the Member proposed to be withdrawn shall be entitled to vote on their own withdrawal from the DAO.

(c) Emergency Immediate Compulsory Withdrawal For Cause. Not in limitation of Section 6(a), 6(b), the Service Provider, in their reasonable discretion, is expressly authorized to remove a Member without notice or vote of the Members if the Service Provider determines such a removal to be necessary, desirable, or appropriate, including, without limitation, to comply with applicable law or regulations, or to avoid a material adverse effect on the DAO. For the avoidance of doubt—the Member to be compulsorily withdrawn shall be entitled to vote with respect to any vote of the Members regarding such compulsory withdrawal, unless the Member is deemed to be in violation of the Code of Conduct and Community Enforcement Guidelines.

(d) Non-Disparagement. Not in limitation of Section 6(a), 6(b), 6(c) and 6(d). During the term of their DAO Membership, and thereafter, any Member shall not make any disparaging remarks, or any remarks that could reasonably be construed as disparaging regarding the DAO, its Members, its affiliates, or its agents. The DAO shall, except to the extent otherwise required by applicable laws, rules, or regulations, or as appropriate in the exercise of the Community Enforcement Guidelines and the Terms of Service, exercise reasonable efforts to cause the following individual(s) to refrain from making any disparaging statements, orally or in writing, regarding the DAO, its Members, or agents during and after the Membership period.

7. Fees and Expenses.

(a) Organizational Expenses. The DAO shall bear all of its organizational expenses and costs, and may amortize these expenses for accounting and/or

(b) Operating Expenses.

(i) The DAO shall bear all costs and expenses relating to its activities, maintenance, and operations, including, without limitation, all fees, expenses, and costs associated (directly or indirectly) with the acquiring, holding, monitoring, and commissioning of artwork, identifying DAO opportunities to fulfill its purpose and any extraordinary expenses (including, without limitation, litigation-related and indemnification expenses), legal, regulatory, research, consulting, compliance, auditing, accounting, and other professional fees and expenses, the costs of any administrator, the costs of any reporting to Members, expenses of any administrative proceedings undertaken by the applicable Member in its capacity, expenses incurred in connection with the dissolution, liquidation, and termination of the DAO, and other expenses related to the DAO as determined by the Members by a vote via the Dapp or the DAO's Snapshot Spaces proposals (collectively, and together with organizational expenses, the "DAO Expenses").

(ii) DAO Expenses shall be allocated to and paid for by the DAO.

8. Distributions; Dividends; Compensation.

(a) The DAO shall not make any distributions of any kind and it will not pay dividends of any kind to any Member or director/officer or other person who may have an ownership interest in the DAO.

(b) The DAO may pay reasonable compensation or reimburse reasonable expenses to a Member or

third-party for services rendered, contract of 200 benefits on a Member or third party in conformity with its nonprofit purposes, repurchase a

Membership and repay a contribution made by a Member to the extent authorized by this Agreement, or make distributions of property to Members upon winding up and termination to the extent permitted by this Agreement.

9. Dissolution.

(a) **General.** The DAO shall be dissolved and its affairs shall be wound up upon the earliest to occur of:

- (i) a determination of the Members by Majority Vote; or
- (ii) the entry of a decree of judicial dissolution pursuant to the Act.

(b) Upon the dissolution of the DAO, assets shall be distributed for one or more exempt purposes which are within the meaning of section 501(c)(3) of the Internal Revenue Code or the corresponding section of any future federal tax code and which are consistent with the goals and purpose of the DAO, or the assets shall be distributed to the federal government, or to a state or local government, for a public purpose. Any such assets not so disposed of shall be disposed of by a court of competent jurisdiction of the county in which the principal office of the DAO is then located, exclusively for such purposes or to such organization or organizations, as said Court shall determine, which are organized and operated exclusively for such purposes.

10. Limitations on Transfers.

(a) **Transfers.** Governance Rights and Tokens are not transferable, except to other Members. Members may vote to allow or disallow the ability of Members to transfer their Governance Rights and/or Tokens by a vote facilitated via the Dapp. Tokens may become freely transferable to Ethereum addresses outside of the DAO ("External Addresses") by a vote of the Members. In the

event the tokens become freely transferable to External Addresses, you agree that holders of External Address which Tokens are transferred to shall automatically be granted Membership rights, subject to this Agreement.

(b) Admission of Substituted Members. If the transferee is not already a Member, any transferee of Tokens transferred in accordance with the provisions of this Section shall be admitted as a Member. The DAO shall not for any purpose recognize any purported transfer of all or any part of a Member's interest or Tokens in the DAO, and no purchaser, assign, transferee, or other recipient of all or any part of such Tokens shall become a Member hereunder unless:

(i) The transferee pursuant to this Section that is admitted to the DAO as a transferee Member shall succeed the rights and liabilities of the transferor Member with respect to such transferred Tokens.

(ii) Effect of Death, Dissolution, or Bankruptcy. Upon the death, incompetence, bankruptcy, insolvency, liquidation, or dissolution of a Member, the rights and obligations of that Member under this Agreement shall accrue to that Member's successor(s), estate, or legal representative, and each such Person shall be treated as an unadmitted transferee of that Member's Tokens, as described in the Act.

11. Books and Records; Accounting and Tax Matters.

The DAO shall not be obligated to keep any books or records beyond what is made available via the Dapp, the DAO's Snapshot Spaces proposals, or available via the Ethereum blockchain.

12. Waiver of Fiduciary Duties.

(a) Except as expressly set forth in this Section, in the event that any Member initiates

any Proceeding against the DAO, and a judgment or order not subject to further appeal or discretionary review is rendered, that Member shall be solely liable for all costs and expenses related to the Proceeding and/or judgment or order from the Proceeding.

(b) Limitation by Law. No provision of this Agreement shall be construed to provide for the indemnification for any liability to the extent (but only to the extent) that such indemnification would be in violation of applicable law, but instead shall be construed so as to effectuate the provisions thereof to the fullest extent permitted by applicable law.

(c) Waiver of Fiduciary Duties. To the fullest extent permitted by applicable law, notwithstanding any other provision of this Agreement or otherwise of applicable law, including any in equity or at law, no Member shall have any fiduciary duty to the DAO or to any Member by reason of this Agreement or in its capacity as a Member, except that the Members shall be subject to the implied contractual covenant of good faith and fair dealing and the terms and provisions of this Agreement. The provisions of this Agreement, to the extent that they restrict or eliminate the duties and liabilities of the Members otherwise existing at law or in equity, are agreed by the parties hereto to replace such other duties and liabilities of the Members. Members can exercise any rights under this Agreement consistent with this Agreement.

13. Intellectual Property Rights.

(a) Grant of Rights. All DAO members, and any Members that join in the future, **grant to the DAO, and its affiliate DAOLABS, LLC**, a perpetual, non-exclusive, royalty-free license and right, and all ancillary and subsidiary rights therein and thereto, throughout the world, to use, edit, modify, include, incorporate, adapt, record, reproduce, display, and archive any copyrightable work associated with any written copy, source

code, illustrations, and artwork (the "Work") in any manner whatsoever, in or out of context, by any and all means and/or devices and in any and all media now or known hereafter—all in connection with the production, exhibition, distribution, exploitation, advertising, marketing, publicity, and promotion of the DAO and its Purpose. The term of this license begins whenever a contribution is made through the Site by a Person entering into this Agreement as a Member or is subsequently admitted as a Member pursuant to the terms of this Agreement (i.e., any and all Members). "Site" includes the DAO, its affiliate DAOLABS, LLC, the decentralized application(s), Github, Discord, and/or any other means of written or oral communication made to the DAO or its Members.

DAO contributors, with regards to development of the DAO application, with compensation, will execute any agreement for consulting or assignment, along with any innovations via a written agreement with the DAO or its affiliate, DAOLABS, LLC³ from which the DAO licenses its Dapp and operating applications.

(b) Reservation of Rights. All rights in any copyrightable works not specifically granted to the DAO are reserved by the Members. Specifically, the DAO acknowledges that its use of the Work will not affect the Member's continued and separate copyright ownership in the Work, and that the Member may use and license others to use the Work elsewhere.

(c) Representations and Warranties, Indemnification. Each Member represents and warrants that it is the owner of the entirety of all intellectual property rights stemming from the Work, and that each Member has full authority to enter into this Agreement and grant the licenses herein. No other rights, permissions, or consents are necessary for the DAO to use the Work in accordance with the licenses granted herein, and no fees, royalties, or use payments of any kind are due to each Member or third parties in connection with the exercise of the licenses granted herein. Each Member guarantees that the Work does not infringe any copyright or

trademark, and that the Work does not violate any privacy, personal, proprietary, or common law, or statutory right, of any Person. Licensor shall

indemnify and hold Licensee (and its agents, Affiliates, assigns, heirs, or other successors in interest) harmless from any claim, loss, liability, damage, or expense (including reasonable attorneys' fees) arising out of any claim, lawsuit, or demand which is inconsistent with or arises out of warranties or representations in this Section.

(d) Limited Field of Use. Notwithstanding the preceding provisions, the DAO shall not use Members' Work for any purposes other those defined in the Section 13(a), which includes use by the DAO within its field of use as defined in its Purpose in Section 1, including any for-profit endeavors, with the exception, however, of the purposes of any derivative rights by the DAO which it is obligated to grant to DAOLABS, or its affiliates for use of or within the licensed Dapp, and any contributions to the DAO where the DAO compensates the Member for the Work.

14. Derivative Matters.

(a) No Derivative Actions. No Member shall have the right to bring any action or proceeding in any court or before any arbitrator or other tribunal against the DAO or any other Member on account of any alleged or actual breach of this Agreement or any other agreement or instrument to which the DAO is a party or by which it is bound, or for any other purpose whatsoever, except as expressly provided in this Agreement.

15. Amendments.

(a) Except as otherwise provided herein, the terms and provisions of this Agreement may be amended only with the prior consent of Members acting by a vote via the Dapp or the DAO's Snapshot Spaces proposals.

(b) Amendments to this Agreement shall be made available via the Dapp.

16. Service Providers.

(a) Appointment and Compensation of Service Providers. The DAO shall have the right to appoint Service Providers to perform administrative services, responsibilities, and duties to carry on the DAO's operations, including maintenance of the Dapp and smart contracts. The DAO shall have the right to provide Service Providers with reasonable compensation.

(b) Limitation of Liability. Notwithstanding anything contained in this Agreement to the contrary, any Service Provider of DAO shall not be liable for any error of judgment, mistake of law, or for any loss suffered by the DAO, its Members, Persons affiliated with the DAO or its Members, or third parties in connection with the matters to which this Agreement relates or for any services provided by a Service Provider, except for a loss resulting from a Service Provider's willful misfeasance, gross negligence, or reckless disregard in the performance of its duties under this Agreement. Furthermore, Service Providers shall not be liable for:

- (i) any action taken or omitted in accordance with or in reliance upon written or oral instructions, advice, data, documents, or information (without investigation or verification) received by Service Providers from any authorized Person;

- (ii) any liability arising from the transfer or use of any Governance Rights or Tokens, including with respect to matters arising under applicable laws or private rights of action; or

- (iii) any action taken or omitted by the DAO, its Members, any affiliated Persons of the DAO or its Members, or any third party.

(c) Indemnification. The DAO shall indemnify and hold harmless any Service Provider. their

affiliates, employees, and agents, from and against any and all losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or in connection with any claim, lawsuit, or demand which arises out of any activities during their period of service to the DAO and from the conclusion of services until the statute of limitations have run for any known or unknown claims. The DAO, its Members, and any contributors to the DAO via the Dapp, the Gnosis Multi-signature Wallet, the purchase of an NFT, or the receipt of any Governance Rights from any party or parties shall agree to the indemnification obligation set forth in the attached Agreement between the DAO and the Service Provider, including its affiliates, employees, and agents.

(d) Initial Service Provider. The DAO will hire the dao-lawfirm.eth, and its affiliates as its initial Service Provider.

(e) Vetoer Role. The Service Provider or its agents shall have the right to veto any action, proposal, or decision of the DAO, its Members, or any affiliated Persons of the DAO or its Members, or any third party, until the community deems it unnecessary via safe-guards encoded into the platform smart-contracts. The Service Provider need not provide any reason for its veto in any form it may take, including but not limited to, a vote, a veto, a veto vote. Additionally, the right extends to taking any action necessary to prevent a fraud, theft or other illegal activity from occurring against the DAO, its Members, its treasury or any other assets of the DAO.

17. General Provisions.

(a) Notices. Subject to Section 5 (Section 2 or Section 5?), all notices required to be delivered under this Agreement shall be effective only if sent via **Discord, Twitter, or another acceptable communication channel**. In computing the period of time for the giving of any notice, the day on which the notice is given shall be excluded, and the day on which the matter noticed is to occur shall be included. If notice is given via electronic means by dao-lawfirm.eth, it shall be
